The recordings are intended to be downloaded and stored in your computer or mp3 player. As for our other Download-Only releases, it is possible to download CD labels, covers and trays for each recording. In addition, we have a "book" with liner notes by Ken Waxman who also has a bio of Mr. Shurdut included. The book can be downloaded at any time and will be updated with each new forthcoming release.

For those who want to burn their CDs, there are many ways of storing your CDs:

Simple plastic pockets

Double plastic pockets

Single CD Jewel boxes & 9 Jewel boxes storage system

Various 4 or 6-CD boxes
 & 6, 8, 10 or 12-DVD boxes
 are also available at specialised outlets

As the LinerBook will "groove" with the number of releases, we suggest a flexible "clamp" system.

The book is designed to be printed on A4 pages, but the layout makes it possible to cut pages in half to keep the document in A5 format.

Specially sized downloadable cover artwork files for multiple CD and DVD boxes are available from the Digital Boxes page.

If you can't find a storage system which fit your taste, we can always give a price for any of the above items.
